PROFESSIONAL SUMMARY

Full-stack Web Developer with 1.5 years of professional experience in PHP, CodeIgniter 3, and Laravel 10. Skilled in developing secure and high-performance web applications with strong proficiency in front-end, back-end, and MySQL database development. Familiar with Node.js and React, with a solid understanding of modern web technologies and best development practices.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer

Apr 2025 – Present

EMDEE Digitronics — BanglaSikha :: SMS Project

- Built modules for Holistic Progress Reports and Marksheet generation with QR codes containing student info and overall marks, improving accessibility and authenticity.
- Automated teacher lifecycle processes, including School Management Committee workflows, teacher transfers, and multi-level (school/district/state) management, streamlining administrative coordination and record handling.
- Designed and developed RESTful APIs and backend services to support the platform migration, enabling clear separation of concerns and easier integration with front-end clients.
- Collaborated on migration strategy from CodeIgniter 3 to Node.js + React, refactoring key modules for improved maintainability, testability, and incremental rollout.
- Worked across frontend, backend and MySQL database, optimizing queries, data models and UI flows to enhance performance and data accuracy; solution received interest from the Madrasah Board for wider adoption.

Jr. Software Developer

Jan 2024 – Nov 2024

KocharTech — Business Operations Console

- Contributed to the **Business Operations Console** project, developing **Channel Manager** and **Platform UI** modules.
